Dear Parents,

We are glad to have your loving ward with us. It is most enjoyable responsibility to educate a child grow as a healthy member of the society. We are his friendly guides, not masters. We request you some suggestions to follow :-

1. Spend at least two to three hours a day interacting with your ward.
2. Encourage your ward to share his/her emotions, feelings, ideas etc., with you.
3. Realise that a child does not have adult maturity level. Keep yourself cool on his/her mistakes and keep on educating him.
4. Take him/her on social visits and outings with you. It helps in socialization and personality development.
5. Feel free to communicate with us about any problems you face or for suggestions.
6. Avoid services of a tutor for your ward. It retards development of sense of responsibility and independent self learning in him/her.
7. Consider that education stands on the foundation of 'personality traits', those grow in the culture medium of 'self discipline'. Help your child grow with growing self discipline.
8. A child needs love, care, protection, education and emotional security & not hatred, punishment, rebuking or ill treatment.

Thanks

प्रिय छात्र के माता-पिता,

बच्चों को शिक्षा देना बहुत सुखद दायित्व है। आप कृपया निम्न बातों पर ध्यान दें :-

1. आप बच्चे के साथ दो से तीन घण्टे व्यतीत करना सुनिश्चित करें।
2. छात्र को अपनी बातें व भावनाएं व्यक्त करने के लिए प्रोत्साहित करें।
3. उसकी गलतियों पर स्वयं को संयमित रखें और उचित मार्गदर्शन करें।
4. सामाजिक कार्यक्रमों में छात्र को भी साथ लेकर जाएं।
5. छात्र सम्बन्धित किसी भी समस्या के समाधान के लिए निसंकोच विद्यालय में सम्पर्क करें।
6. छात्र के लिए कोई ट्यूटर न रखें। इससे छात्र के सीखने की प्रक्रिया धीमी पड़ सकती है।
7. छात्र की शिक्षा में रुचि व कार्यक्षमता उसके व्यक्तित्व व आचरण पर निर्भर करते हैं। छात्र में आत्म संयम व अनुशासन निर्माण पर ध्यान दें।
8. बच्चे को प्यार, सुरक्षा, देखभाल व शिक्षा दें तथा घृणा, डांट-फटकार व बुरे बर्ताव से दूर रखें।

धन्यवाद
